## Waste Site Reclassification Form

<b>Date Submitted:</b> 8/26/1999	<b>Operable Unit(s):</b> 200-CW-5	<b>Control Number:</b> 99-062
<b>Originator:</b> B. H. Ford	<b>Waste Site ID:</b> UPR-200-W-18	
<b>Phone:</b> 372-9176	<b>Type of Reclassification Action:</b> Rejected <input checked="" type="radio"/> Closed-Out <input type="radio"/> No Action <input type="radio"/>	

This form documents agreement among the parties listed below authorizing classification of the subject unit as rejected, closed-out, or no action and authorizing backfill of the site, if appropriate. Final removal from the NPL of no action or closed-out sites will occur at a future date.

**Description of current waste site condition:**

The site is an unplanned release, and a duplicate of UPR-200-W-139. In September 1953, contamination from an unknown source was detected in the 216-U-9 Ditch. The contamination was limited to the 216-U-9 Ditch.

**Basis for reclassification:**

A review was performed (August 30, 1999) of the original WIDS data packages dating back to 1988. Both UPR-200-W-139 and UPR-200-W-18 identify 216-U-9 ditch as contaminated in September 1953 and that the ditch was covered in the spring of 1954 with 0.6 meters (2 feet) of clean soil. It was then designated a radiation zone by "Underground Contamination" signs posted at intervals on both sides of the ditch. Both sites have identical references, with the source reference as HW-60807. This site has been reclassified as 'Rejected' because it is a duplicate of UPR-200-W-139.

# Waste Information Data System General Summary Report

10/7/1998

<b>Site Code:</b> UPR-200-W-18	<b>Site Classification:</b> Accepted	<b>Page</b> 1
<hr/>		
<b>Site Names:</b>	UPR-200-W-18, Liquid Release to 216-U-9	
<b>Site Type:</b>	Unplanned Release	<b>Start Date:</b> 1953
<b>Status:</b>	Inactive	<b>End Date:</b>
<b>Operable Unit:</b>	200-CW-5	<b>Coordinates:</b>
<b>Hanford Area:</b>	200W	(E) 0
		(N) 0
		Washington State Plane
<b>Site Description:</b>	The site is an unplanned release in the 216-U-9 Ditch. It is a duplicate of UPR-200-W-139.	
<b>Location Description:</b>	The site is located in the 200 West Area.	
<b>Associated Structures:</b>	The site is associated with the 216-U-9 Ditch.	
<b>Site Comment:</b>	A review was performed (August 30, 1999) of the original WIDS data packages dating back to 1988. Both UPR-200-W-139 and UPR-200-W-18 identify the 216-U-9 ditch as contaminated in September 1953 and that the ditch was covered in the spring of 1954 with 0.6 meters (2 feet) of clean soil. It was then designated a radiation zone by "Underground Contamination" signs posted at intervals on both sides of the ditch. Both sites have identical references, with the source reference as HW-60807. This site is proposed for reclassification to rejection as a duplicate of UPR-200-W-139.	
<b>Release Description:</b>	In September 1953, contamination from an unknown source was detected in the 216-U-9 Ditch.	
<b>Environmental Monitoring Description:</b>	The contamination was limited to the 216-U-9 Ditch.
